TECHNOLOGY KOTA

# FLAIR FIESTA 2019

Flairfiesta is the annual cultural fest of IIIT Kota creating an aura of enjoyment and enlightenment among everyone.

5th - 7th APRIL

**Prof. Udaykumar R Yaragatti  
Director, MNIT-Jaipur  
(Mentor Director-IIIT Kota)**

Dear Students,

It gives me immense pleasure in congratulating organizing team for organizing FlairFiesta and releasing a brochure of all events. It's my firm belief that to maintain the energy level of students in academics and regulate their flow of creativity, it is vital to get them engaged in some extra-curricular activities while refreshing their brains for their studies and in this regard, the institute always encourages a good participation

in technical, cultural, and literally activities to provide ample opportunities to the students for their skills enhancement, social interaction, confidence building, and new relationship development. As most of these activities are group-oriented activities which have students from different niches, it gives them a chance to know more about people of different passions and culture. I hope FlairFiesta will give a chance to all students from all parts of the country studying in the institute to demonstrate their talents in various areas while involving in the fun-filled activities and competitions on board and frame their future. I am sure that the events will witness a good amount of student participation and support.

I wish the event all success.

**Prof. Rakesh Jain  
- Coordinator, IIIT Kota**

It is my most humble opinion that while academic pursuits certainly contribute towards success, character building and holistic development can be achieved only by participating in a variety of activities to delight and entice the myriad senses of the human mind. Music, dance, literature is not mere artistic pursuits but also a sense of expression, critical to anyone in their formative years.

It gives me immense pleasure to introduce Flairfiesta, the annual cultural and technical fest of our institute. I have no doubt that this edition will be fulfilling and an unforgettable experience to all.

With regard and best wishes,

Swami Vivekananda once said, "We want the education by which character is formed, strength of mind is increased, the intellect is expanded, and by which one can stand on one's own feet and Indian Institute of Information Technology, Kota is devoted to being a centre of excellence in education and research, producing global leaders in science and technology.

It is said that a good work-life balance is a key to an individual's happiness in today's fast paced

**Dr. Vinita Tiwari  
Convenor, CACS-IIIT Kota**

*"What once began as an idea continued as tradition".*

Welcome to our cultural and technical festival FlairFiesta'19". On the surface FlairFiesta is a festival of music and dance, of arts and theater, entertainment, awe-inspiring performance, technical brainstorming and much more. At its core, however, this event is about blurring imagined boundaries and recognizing our inherent Unity in Diversity, it is about holding a safe space for the sharing of visions and the hearing of voices that would otherwise have not been heard.

As an event of the IIIT Kota, its connection to community is undeniable, its commitment to nurturing grassroots arts and music is reflected in our programming, and our mission to allow the expression of diverse voices is what gives this event We look forward with much anticipation to welcoming your shining faces at IIIT

*the life and vibrancy that so many others strive for which we have meticulously prepared for you..*

# ABOUT

Indian Institute of Information Technology Kota is a growing institute of national importance mentored by MNIT Jaipur. We encourage our students to make the best use of their skills to cope up with the fast growing outside world, not only in terms of technology, but in a broader view to accept and face other challenges too. Flairfiesta is the annual cultural fest of IIIT Kota creating an aura of enjoyment and enlightenment among everyone.

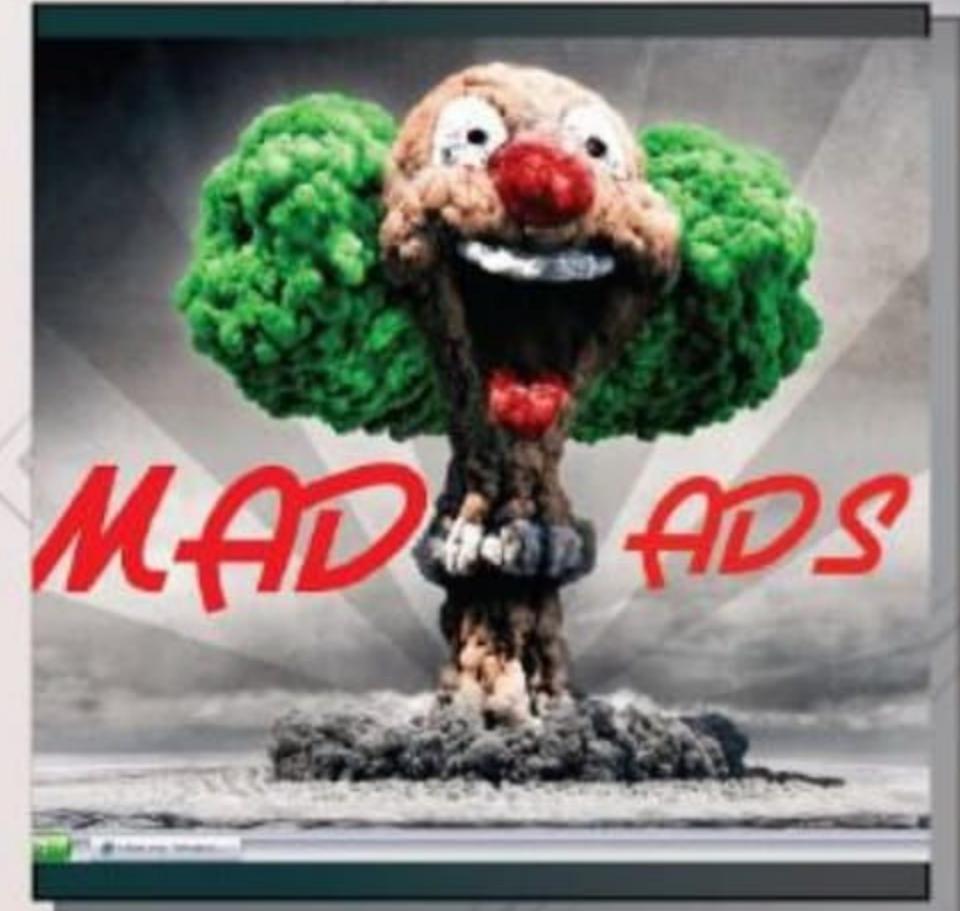

We aim to expand it every year to reach greater heights and succeed with flying colors. Not only related to technical field, but it has spread its wings to incubate other ideas too. These ideas range from dramatic events to other interesting events that include treasure hunts, literature related events and much more. We hope it brings a change in the society.

# Cultural Events

We share a culture where everyone's opinion expression and differences are valuable. Absorb yourself in the rhythm as you get to witness an awe inspiring spectacle of various art forms. The inventiveness is to provide social, cultural and recreational activities for the college community.

# TECHNICAL EVENTS

A close-up photograph of a computer motherboard. The board is dark grey or black with various electronic components attached. Red and black are the dominant colors used for the capacitors, heat sinks, and printed circuit traces. A central processing unit (CPU) is visible in its socket, and RAM chips are installed in their slots. The overall aesthetic is modern and high-performance.

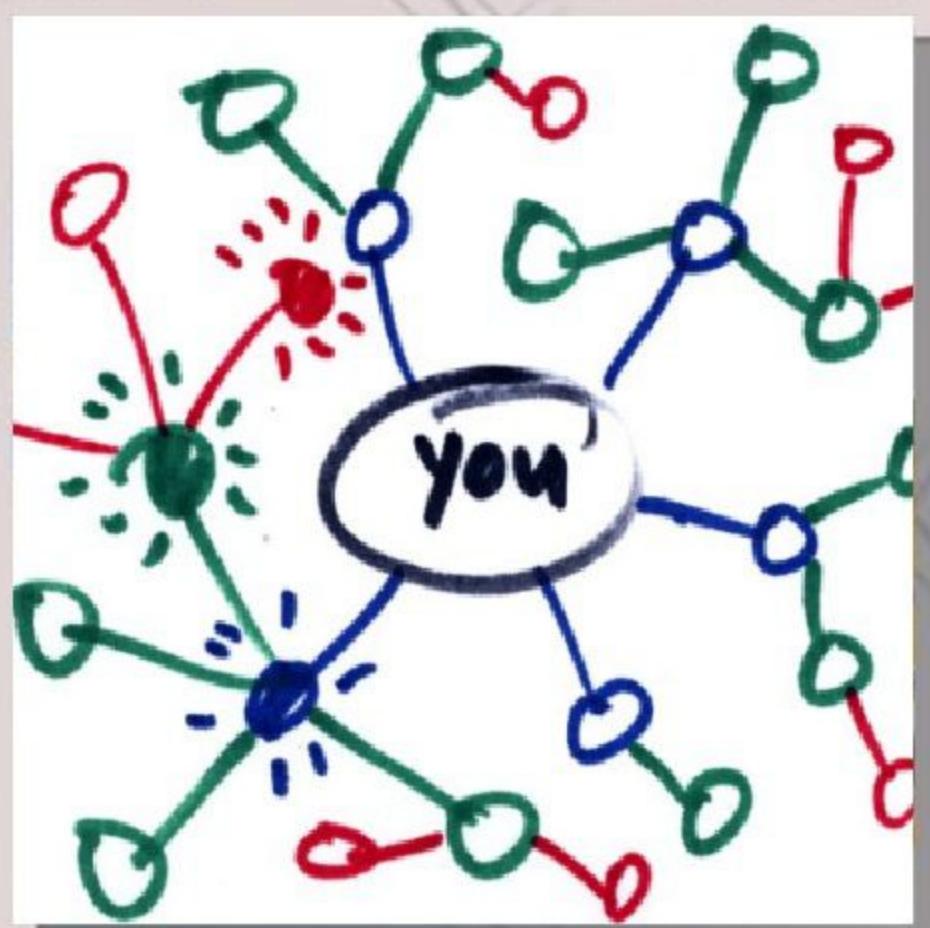

It has been started with the objective of development and exchange of relevant knowledge to learn and develop skills in various aspects of programming and hardware development and become aware of the technological advancement in various spheres of computer science engineering

# FINE ARTS & PHOTOGRAPHY

Not everyone appreciates the beauty that encompasses us. This club aspires to exhibit what cannot be explained by words. So capture the moments, create your own illusions and become a part of the photoplay. It provides an opportunity to the students to let their imagination run wild and provides them with the sight to see things in a different way.
